SPECIAL EFFECTS

(Fog Machines)

High End Systems FQ-100 Performance Fog Generator

Low noise levels ideally suited for theatrical and studio work. Produces any atmosphere from dense fog to fine mist. Features an internal LCD digital menu system to set volume, timer, and DMX functions.

Mole-Richardson Moleffect Fogmaker

Compact, versatile unit generates effects of fog, smoke, haze, and mist. Fog juice tank capacity of 1/5 gallon provides about 480 full puffs of smoke.

(Fans (Windmachines))

Mole-Richardson Moleeffect Windmachine – 18" Fan

Minimum noise fan with multi-voltage and multi-control. Features a built-in rheostat to vary effect from slight zephyr to a stiff breeze.

Reel EFX RE Fan II Turbo

Adjustable speed control and one-touch blast button with a unique design to control beam focus. Peak velocity of 20 mph at 10' when fully focused. Focused beam of 10° (3.5' diameter beam at 10') and flood of 45° (8' beam at 10').

(Misc.)

Silver Disco Mirror Ball – 20"

Creates dynamic light show with 100s of reflective acrylic mini tiles, reflecting white and/or colored light in wide spread.

Includes: (1) motor.

ACCESSORIES:

Pin Spot Light for Disco Ball

Turntable Platform – 8" Diameter

8.8 lb load capacity with motor.
