REFLECTORS & ACCESSORIES

(Diffusers)

Profoto Diffusor for Softlight Reflector

Wraps around the reflector to further soften the light, reducing it by 1/3 stop.

(Grids)

Profoto Grid Kit for Zoom Reflector 2

Maximizes potential of the variable beam angle Zoom Reflector 2.

Includes: (1) medium-narrow 20° Grid, (1) narrow 10° Grid, and (1) extra-narrow 5° Grid.

Profoto Honeycomb Grid 10° for Magnum Reflector

This accessory narrows the beam spread of light to 10°.

Profoto Honeycomb Grid 10° for WideZoom Reflector

Alters shape and intensity of the light output from softbox when mounted on a light head.

Profoto Honeycomb Grid 25° for Softlight Reflector

Alters shape and intensity of the light output from flash heads, creating a small circle of light.

(Panel Reflectors)

Lastolite Skylite Rapid Large Diffuser – .25 Stop (Scrim Jim)

Fits 6.6' x 6.6' aluminum alloy frame with .25 stop diffuser fabric.

Lastolite Skylite Rapid Large Diffuser – .75 Stop (Scrim Jim)

Fits 6.6' x 6.6' aluminum alloy frame with .75 stop diffuser fabric.

Lastolite Skylite Rapid Large Kit – 6.6' x 6.6' (Scrim Jim)

6.6'x6.6' aluminum alloy frame with quick-change fabrics.

Includes: (1) .75 stop diffusion and (1) gold/silver reflector.

Lastolite Skylite Rapid Large Reflector – Black Velvet (Scrim Jim)

Fits 6.6' x 6.6' aluminum alloy frame with black velvet fabric.

Lastolite Skylite Rapid Large Reflector – Gold/Silver (Scrim Jim)

Fits 6.6' x 6.6' aluminum alloy frame with gold/silver fabric.

(Reflectors & Reflector Kits)

Profoto 26° Silver Softlight Reflector (Beauty Dish) – 20.5"

Provides center-weighted beam with 26° spread.

Profoto 65° Softlight Reflector (Beauty Dish) – 20.5"

Designed to give wide, uniform, and soft light when mounted to a Profoto Flash Head. Provides 65° spread.

Profoto 7" Grid Reflector for Flash Heads

Accessory for Profoto Flash Head.

Profoto Close-Up Reflector for Ring Flash Heads

Gathers and intensifies the head's output. Compatible with Pro-7, ProRing2, Acute Ring Flash.

Profoto Magnum Reflector 50°

Provides strong, smooth light when mounted to a Profoto Flash Head with a 50° angle of beam spread.

(Reflectors & Reflector Kits) Cont. –

Profoto Softlight Reflector for Ring Flash

Creates softer, shadow-free light from Ring Flash.

Profoto Softlight Reflector Kit

Includes: (1) 65° White Softlight Reflector, (1) 25° Honeycomb Grid, and (1) 1/3 Stop Diffusor.

Profoto WideZoom Reflector

Focusable for even illumination from 70-40°. An optional 10° grid is available to narrow the beam spread.
